Education

KIET Group of Institutions — Ghaziabad, Uttar Pradesh
B.Tech in Computer Science and Engineering (Artificial Intelligence) (GPA: 8.208/10) — *Oct 2023 – Present*

Sacred Heart School (Intermediate) — Ballia, Uttar Pradesh
(Percentage: 86.2) — *2021 – 2022*

Sacred Heart School (High School) — Ballia, Uttar Pradesh
(Percentage: 89.3) — *2019 – 2020*

Projects

AI Job Prep | *React.js, Node.js, Express.js, MongoDB, Gemini API, JWT, Puppeteer* — Jan 2026

- Built a full-stack interview preparation platform using React, Node.js, Express.js, and MongoDB, integrating the Google Gemini API to generate technical and behavioral interview questions, model answers, skill-gap analysis, and study roadmaps.
- Implemented JWT authentication with HTTP-only cookies, protected routes, password hashing, token blacklisting, and user-scoped database queries for secure report access.
- Developed an automated ATS-tailored resume generation pipeline using Gemini and Puppeteer, converting AI-generated HTML into downloadable A4 PDF resumes.

MERN Chat App | *MongoDB, Express.js, React.js, Node.js, Socket.io* — Oct 2025

- Built a real-time chat application using the MERN stack and Socket.io for instant bidirectional messaging between users.
- Developed REST APIs with Express.js and integrated MongoDB for persistent storage and retrieval of chat messages.
- Implemented real-time message updates without page reloads and built a responsive React interface for seamless chat interactions.

MERN Authentication System | *MongoDB, Express.js, React.js, Node.js, JWT* — Sep 2025

- Built a secure authentication system with user registration, login, protected routes, and JWT-based authentication using the MERN stack.
- Implemented email verification and password reset using secure token-based links, with user data stored in MongoDB.
- Secured user credentials using bcrypt password hashing and integrated authentication middleware to protect backend API routes.

Technical Skills

Languages: C, C++, Java, Python, HTML, CSS, JavaScript
Frameworks and Libraries: React, Bootstrap, Tailwind CSS, Node.js, Express.js
Databases: MySQL, MongoDB
Tools and Platforms: Git, GitHub, VS Code, Eclipse IDE, Postman
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, REST APIs, MERN Stack

Certifications

- MongoDB Basics for Students
- Udemy Complete Front-End Web Development Course

Achievements

- Solved 250+ Data Structures and Algorithms problems across platforms like LeetCode and GeeksforGeeks.
- Built and deployed multiple full-stack applications using the MERN stack.
